

JD Sports UK Sustainability

Roadmap 2027

Net Zero Roadmap | Circular Economy | Sustainable Sourcing

Author: Head of Sustainability, JD Sports UK

Date: November 2026

Classification: CONFIDENTIAL - INTERNAL USE ONLY

This document sets out JD Sports UK's sustainability strategy, targets, and commitments for the period 2027 to 2035, aligned with the Group's Science Based Targets initiative (SBTi) validated 1.5°C pathway and net zero by 2043 commitment.

1. Executive Summary

JD Sports UK commits to a comprehensive sustainability transformation across its entire value chain, from product design and sourcing to store operations, logistics, and end-of-life management. This roadmap builds on the Group's existing validated SBTi targets and extends them with UK-specific initiatives.

The roadmap targets a 50% absolute reduction in Scope 1 and 2 greenhouse gas emissions by 2030 (versus the 2019/20 baseline), accelerating to 67.2% by 2035 as validated by the Science Based Targets initiative. For Scope 3 — over 95% of JD Sports' total carbon footprint — the roadmap targets a 30% reduction in purchased goods and services emissions by 2030 and 67.2% by 2035.

Total sustainability investment for the UK business over FY2027 to FY2035 is budgeted at GBP 42 million, covering capital expenditure (store energy upgrades, fleet electrification, solar) and operating expenditure (sustainable materials premium, take-back programme operations, colleague training, compliance systems).

2. Carbon Reduction & Energy

2.1 Emissions Baseline (FY2019/20)

JD Sports UK's baseline carbon footprint:

- Scope 1 (direct gas, fleet fuel): 12,400 tCO₂e
- Scope 2 (purchased electricity): 18,600 tCO₂e
- Scope 3 (purchased goods, logistics, travel, investments): 2,150,000 tCO₂e
- Total UK footprint: approximately 2,181,000 tCO₂e
- Scope 3 is 98.6% of total; purchased goods and services accounts for 92% of Scope 3

2.2 UK-Specific Targets

The UK business commits beyond Group-level SBTi targets:

- 100% renewable electricity across all UK stores, DCs, and offices — achieved from October 2026 via REGO-backed tariffs and on-site solar generation (RE100 aligned)
- LED lighting retrofit completed across 100% of the UK store estate (430 stores) by end of FY2028, saving an estimated 4,200 tCO₂e per year
- BEMS installed in all 25 high-energy stores by FY2029, targeting a further 655 tCO₂e reduction
- EV transition for the UK fleet: 50% of the 180-vehicle delivery fleet electrified by FY2030, 100% by FY2035

3. Sustainable Sourcing & Materials

3.1 Own-Brand Products

JD Sports UK's private label portfolio (McKenzie, Supply & Demand, Montirex, Pink Soda Sport, Red Run Activewear) represents approximately 4% of total UK revenue. Roadmap targets:

- 100% own-brand cotton sourced through Better Cotton Initiative (BCI) by FY2028, physical traceability to country of origin by early 2027
- 50% own-brand polyester recycled (rPET) by FY2030, rising to 75% by FY2035 (baseline ~12% in FY2026)
- All own-brand garment bags and hangers converted to recycled LDPE plastic — completed FY2026 (over 12 million garment bags and 8 million hangers used annually)
- Virgin plastic eliminated from own-brand packaging by FY2028 (polybags, hang-tags, stickers)
- Launch of 'Green Line' capsule collection across McKenzie and Supply & Demand by Spring 2027, featuring 100% organic cotton or recycled polyester, reduced water dyeing, plastic-free packaging

3.2 Third-Party Brand Engagement

Over 84% of JD Sports UK sales come from third-party brands (Nike, Adidas, New Balance, VF Corp, ASICS, PUMA). JD Sports UK will use its position as the UK's largest sportswear retailer:

- Annual supplier ESG scorecards from FY2027 assessing carbon reduction, sustainable materials, circular economy, and supply chain transparency
- Preferred supplier programme from FY2028 offering enhanced ranging, marketing support, and prime floor space to top ESG-scoring brands
- Third-party brands required to disclose SBTi-validated targets by FY2030 to maintain core ranging
- Quarterly ESG committee meetings with Nike, Adidas, New Balance, VF Corp, ASICS, and PUMA

4. Packaging & Waste

4.1 Packaging Reduction

JD Sports UK already sources 100% recycled cardboard for e-commerce boxes with 38% space efficiency:

- 50% reduction in packaging weight per order by FY2030 (vs FY2025 baseline of 180g per order)
- Single-use plastics eliminated from e-commerce packaging by FY2028 (recycled paper void fill, paper mailer bags)
- Cardboard box optimisation extended to all fascias (Size?, Footpatrol, GO Outdoors, Blacks, Millets) by FY2028
- Reusable tote programme for B2B replenishment launched FY2028, targeting elimination of 18 million single-use polybags annually across the UK supply chain

5. Circular Economy & Product Stewardship

5.1 Take-Back Programme: 'JD Re:Wear'

JD Sports UK will launch 'JD Re:Wear', a nationwide in-store and online product take-back programme from March 2028, accepting pre-owned sportswear, footwear, and accessories from any brand. Customers receive a 15% discount voucher on next purchase.

- Collection target: 500,000 items (250 tonnes) in Year 1, rising to 2M items (1,000 tonnes) annually by FY2032
- Rollout: 200 flagship and high-footfall stores by end of FY2028, all 430 UK stores by FY2030
- Online take-back via prepaid Royal Mail labels available from June 2028
- Partnership with SOEX Group for sorting, grading, and processing — contract awarded Q4 2027
- Resaleable items (est. 40%) via dedicated in-store sections and online marketplace; non-resaleable (60%) through fibre-to-fibre recycling partnerships

5.2 Repair & Resale

In-store shoe repair trials begin in 10 flagship stores (London Oxford Street, Manchester Market Street, Birmingham Bullring, Glasgow Buchanan Street, Leeds Trinity, Liverpool ONE, Newcastle Eldon Square, Cardiff St David's, Bristol Cabot Circus, Bluewater) from H2 2028. Services include sole replacement, stitching repair, and deep cleaning at average GBP 25 per pair.

- Target: 25,000 repair transactions in first 12 months, expanding to 50 stores by FY2030
- Online resale marketplace launching FY2029, leveraging JD app (2M MAU target)
- Partnership with The Restory for premium aftercare services, launched Q1 2029

6. Store Operations & Logistics

6.1 Store Estate

JD Sports UK operates approx. 430 stores: 16 flagship, 280 high street, 134 retail park.

- Zero Waste to Landfill extended from Rochdale DC and Bury head office to all UK stores by FY2030
- Current recycling: >5,000 tonnes cardboard/year; target >7,000 tonnes by FY2029
- Solar PV at UK Outdoors DC (H1 2026) and 50 largest stores by FY2030, targeting 2.5 MW capacity
- 90 electric vans deployed by FY2030 (50% of fleet), charging at Rochdale DC and regional clusters

7. Governance, Compliance & Reporting

Governed by the JD Sports UK ESG Steering Group, chaired by the UK Managing Director, with quarterly reporting to the Group ESG Committee. Key commitments:

- UK-specific sustainability report published annually from FY2028 (TCFD-aligned)
- EU CSRD adopted as best practice for UK reporting from FY2029
- EU Digital Product Passport implementation for own-brand products by H2 2028
- Green Claims Code compliance: all claims verified by third-party assurance provider (Q2 2027)
- UK Plastic Packaging Tax: min 30% recycled content in all plastic packaging by FY2028

8. Colleague Training & Culture

The '#IAMSustainable' programme, already delivered across 21 countries to over 22,000 colleagues, will be deepened for the UK:

- All 8,500 UK colleagues complete Level 1 sustainability awareness training by end of FY2027
- 500 'Sustainability Champions' trained across the UK store network by FY2028 (2 hours/week dedicated time for in-store activities)
- Store manager sustainability KPIs from FY2028: energy efficiency, waste segregation, take-back participation (10% of annual bonus weighting)
- Annual Sustainability Awards from FY2028 recognising top stores and colleagues

9. Implementation Roadmap: Key Milestones

FY2027 (2026/27): Baseline verification complete. LED retrofit begins. BEMS pilot to 25 stores. Garment bags converted to recycled LDPE. Green Claims programme launched. 'Green Line' collection launches.

FY2028 (2027/28): JD Re:Wear launches March 2028 in 200 stores. 100% LED retrofit. 100% own-brand cotton BCI certified. Virgin plastic eliminated. Reusable tote programme. Digital Product Passport.

FY2029 (2028/29): 50% own-brand polyester recycled. Repair service in 10 flagships. Online resale marketplace. 250 Sustainability Champions. Zero Waste to Landfill in 50% of stores. EV fleet at 30%.

FY2030 (2029/30): 30% Scope 3 reduction. 50% EV fleet. Zero Waste across entire UK estate. JD Re:Wear in all 430 stores. 50% packaging weight reduction. 90 electric vans.

FY2035 (2034/35): 67.2% reduction all scopes (SBTi). 100% EV fleet. 75% recycled polyester. Net zero pathway on track for 2043 Group commitment.
